Saskarc Inc.

Re: Customer Satisfaction Feedback PO #210200-028

Dear Ranganath,

Nooter/Eriksen has experienced a positive project working with Saskarc on the Great Plains Power Station. The project team communicated well throughout execution and notified us of any issues. They worked as a partner to find solutions and adapted to changes. The fabrication is ahead of schedule and will be completed on time. Nooter/Eriksen would have no hesitation to place future work with Saskarc.

Sincerely,

Brian Sicking
